### IMPROVE CUSTOMER SERVICE AND PRODUCTIVITY

TeleNav Track LITE provides an effective and inexpensive way for you to track your mobile assets and employees. Using your Internet connected PC, you can log into a password protected Web site and view the GPS location of your employees and mobile assets.

- **NEW! Voice Timecard.** Mobile workers can simply place a voice call to Clock In, Clock Out, Start Break and End Break. You can retrieve the timesheet report—with the location of where the call was placed—from TeleNav Track's Web site.
- **Always on<sup>1</sup>, always aware.** Find mobile resources when you need them.
- **View all your workers on a detailed map.** Maximize worker productivity by coordinating your mobile resources.
- **See a worker's daily route.** Know what is happening in the field today across your fleet.
- **Real-time reports.** Ensure customer visits and review employee productivity.
- **View reports of when a worker was speeding.** Enforce safety policies and reduce your insurance premiums.
- **View where a worker stopped and for how long.** Enforce stop policies by viewing unauthorized stops.
- **Mark the locations of customers using landmarks.** See who is closest to a customer.
- **Get alerts when workers are out of coverage.** Proof positive that workers are staying on task.
